

CATCH FANS

Safety nets for falling object protection.

TRAD Catch Fans provide reliable, high-rise protection from falling objects. Designed to absorb impact, contain debris, and safeguard workers, they keep safety close to the working area throughout construction.

FEATURES & BENEFITS

- ✓ Attaches to concrete, steel, or scaffold structures
- ✓ Meets EN 1263-1 safety requirements
- ✓ Double-layer polypropylene net for maximum containment
- ✓ Available in 4m or 6m lengths with 3.2m projection
- ✓ Easily repositioned to stay close to work zones

LIFT SHAFT GATE

Secure, adaptable lift shaft protection.

The TRAD Lift Shaft Gate delivers robust edge protection for lift shaft openings. Lightweight, adaptable, and fully compliant, it offers a safe, versatile solution for one of construction's highest-risk areas.

FEATURES & BENEFITS

- ✓ Stable gate design for safe partial access
- ✓ Lightweight 30kg aluminium for easy handling
- ✓ Fits 1.2m openings with extendable side panels
- ✓ Fully compliant with BS EN 13374 Class A & BS 7255
- ✓ Lockable for secure restricted access

SITE STAIRWAYS

Safe, quick access between site levels.

The TRAD Lift Shaft Gate delivers robust edge protection for lift shaft openings. Lightweight, adaptable, and fully compliant, it offers a safe, versatile solution for one of construction's highest-risk areas.

FEATURES & BENEFITS

- ✓ Fully compliant with EN12811 safety standards
- ✓ Adjustable for angles between 25–50 degrees
- ✓ Quick, two-person installation and easy relocation
- ✓ Durable galvanised steel for long-lasting use
- ✓ Treads remain horizontal on any incline

INTERNAL STAIRS

Fast-install stairs for multi-level sites.

The TRAD Internal Stair Unit provides fast, secure access between floors in stairwells or voids. Lightweight aluminium design enables quick installation, improves safety, and allows easy movement of tools and materials.

FEATURES & BENEFITS

- ✓ Compliant with BS EN 12811 and WAHR standards
- ✓ Tested to a 150kg load capacity
- ✓ Lightweight 40kg aluminium construction
- ✓ Optional extended landing platform for greater spans
- ✓ Non-slip treads for added safety
