

ROOF SAFETY. COVERED.

Smart, secure systems for safer roofs.

From permanent edge protection to horizontal lifelines, TRAD UK provides everything you need to keep people safe when working at height. Compliant, tested, and built to last - our roof safety systems are designed for the real world.

ALL-IN-ONE EDGE GUARD

Engineered edge protection.

TRAD All-In-One EdgeGuard is a versatile, fully compliant roof edge protection system for permanent or temporary use. Quick to install, lightweight, and adaptable to multiple roof types with minimal tools.

FEATURES & BENEFITS

- ✓ Complies with BS EN 13374:2018 & BS 13700:2021
- ✓ Galvanised, corrosion-resistant finish, powder coat optional
- ✓ Permanent, temporary, and folding configurations available
- ✓ Modular design for rapid, tool-free installation
- ✓ Wide range of fittings for varied roof types

WALKWAYS

Safe, non-slip roof access for all surfaces.

TRAD Walkway Systems provide safe, non-slip roof access while protecting surfaces. Suitable for all roof types, they're lightweight, durable, and fully compliant with safety standards for reliable, all-weather performance.

FEATURES & BENEFITS

- ✓ Ultra non-slip surface for all-weather safety
- ✓ Protects roof surfaces from foot traffic damage
- ✓ Fire retardant to BS 476 Class 2
- ✓ Lightweight, impact and chemical resistant design
- ✓ Available in multiple sizes, types, and colours

LIFELINE SYSTEMS

Continuous fall protection for all roof types.

TRAD Horizontal Lifeline Systems deliver safe, flexible roof access for multiple users. Fully compliant, custom-designed, and adaptable to any structure, they ensure long-lasting performance with minimal maintenance and easy installation.

FEATURES & BENEFITS

- ✓ Custom-designed for optimal safety and performance
- ✓ Adapts to steel, concrete, and brickwork
- ✓ Fully compliant to BS EN 795, BS 7883, OSHA, AS/NZ standards
- ✓ Supports multiple users for fall arrest or restraint
- ✓ Durable, low-maintenance design with minimal moving parts

CATCH FANS

Safety nets for falling object protection.

TRAD Catch Fans provide reliable, high-rise protection from falling objects. Designed to absorb impact, contain debris, and safeguard workers, they keep safety close to the working area throughout construction.

FEATURES & BENEFITS

- ✓ Attaches to concrete, steel, or scaffold structures
- ✓ Meets EN 1263-1 safety requirements
- ✓ Double-layer polypropylene net for maximum containment
- ✓ Available in 4m or 6m lengths with 3.2m projection
- ✓ Easily repositioned to stay close to work zones

LIFT SHAFT GATE

Secure, adaptable lift shaft protection.

The TRAD Lift Shaft Gate delivers robust edge protection for lift shaft openings. Lightweight, adaptable, and fully compliant, it offers a safe, versatile solution for one of construction's highest-risk areas.

FEATURES & BENEFITS

- ✓ Stable gate design for safe partial access
- ✓ Lightweight 30kg aluminium for easy handling
- ✓ Fits 1.2m openings with extendable side panels
- ✓ Fully compliant with BS EN 13374 Class A & BS 7255
- ✓ Lockable for secure restricted access
