2.	What benefit do these services/products provide to scaffolding contractors?
	<p>The services that we offer to clients identify potential hazards and develop effective risk management strategies to ensure the safety of all workers on site. We achieve this through a range of both proactive and reactive monitoring arrangements, through effective auditing.</p> <p>Our extensive knowledge of the Access and Scaffolding sector and its Temporary works requirements give us an unrivalled perspective, which enables us to identify issues others miss.</p> <p>This knowledge has been built up over the last 40 years of practical contracting experience. Our ranges of experience enable us to offer the solutions to the problems identified, benefitting our clients immediately with rapid close outs on findings, enabling them to embed any new processes quickly, giving clients confidence.</p> <p>In particular our services have assisted to raise the awareness across key industry of key topics, such as the below.</p> <p>Work at Height; Our audit and inspection services have flagged work at height issues but more importantly we have assisted clients to implement change and drive-up compliance, through a proper understanding of guidance such as SG4:22.</p> <p>Temporary Works; Our services have allowed our clients to gain an understanding of the procedures required to successfully implement BS5975:2019.</p> <p>Accident Investigation; Our investigations have assisted clients in understanding route case analysis, feeding back to reduce future events.</p> <p>TG20:21; Our auditing regimes have assisted clients to understand what is and more importantly isn't allowed under this guidance.</p> <p>In addition to our technical skills, we are excellent communicators and have worked collaboratively with other members of the project teams, clients and other Industry stakeholders.</p> <p>Confidential</p>

	<p>02/07/2023 NASC Submission 2</p> <p>We are able to effectively communicate complex safety requirements to site workers and management and are always willing to provide guidance and support when needed. We are highly knowledgeable and dedicated professionals who bring not only expertise but also a positive attitude and the ability to work collaboratively with a wide range of stakeholders, from the onsite scaffolders through to senior management at all levels in the supply chain.</p>
3.	<p>Why do you feel the services/products that your company provides should receive special recognition from NASC members?</p>
	<p>Over the years, we have gained a wealth of knowledge in our specialist field and honed our expertise through a combination of education, training, and hands-on experience.</p> <p>We offer a different service provision to others operating in our specific market segment, due to the contracting knowledge that we have and our ability to use that to solve problems fast and effectively.</p> <p>We have worked on a variety of projects, from small-scale initiatives to large complex schemes that have covered all sectors of construction. Our attention to detail, strong work ethic, and ability to collaborate effectively with colleagues and clients have been key to our successes to date.</p> <p>Specifically, we have helped promote industry by serving in voluntary capacities on both major trade associations executive boards.</p> <ul style="list-style-type: none"> • Developed and executed strategic plans to promote the interests of member companies. • Conducted research and analysis on industry-related topics to keep members informed. • Represented trade association on industry events, conferences, and other forums. • Collaborated with other stakeholders to advocate for trade association involvement. • Engaged with members and clients to understand their needs and concerns, and provided them with timely and accurate information and support. • Collaborated with other members on trade association committees, always with a view to improve industry. <p>We understand the importance of staying up-to-date with the latest industry, legislation, trends and best practices, in order to deliver a first class and informed perspective to our clients based on knowledge.</p> <p>We believe that these actions and our business practices promote and improve the areas that we engage in benefiting the health and wellbeing of our clients and others.</p>
