

SCAFFOLDING ANCILLARY SERVICE OF THE YEAR AWARD

NAME OF COMPANY:	Cactus Security
COMPANY WEBSITE:	www.cactussecurity.co.uk
1.	What services/products does your company provide? <i>(Please use bullet points if more than one).</i>
	<p>Cactus Security specialise in all forms of construction and home security. Established in 2006, the priority has always been to provide excellent customer satisfaction, a high standard of work, supported by a professional and courteous team. We take pride in ensuring that our security solutions meet the most current specifications and are installed and fitted with the highest-grade equipment. Our services comprise:</p> <ul style="list-style-type: none"> • Construction Security • Scaffold Alarms • Visual Surveillance Systems (CCTV) • Internal Alarm Systems • Security Floodlights • IIOV Hazard Lights • Security Fencing • 24 Hour Monitoring • Patrol Company • Timber Hoardings • Perimeter Protection • Domestic Alarms • Permanent Church Roof Cameras • Satellite Dish & Aerial Relocation • Earth Bonding
2.	What benefit do these services/products provide to scaffolding contractors?
	<p>Cactus Security provides state of the art scaffold alarms that are easy to maintain and use, yet flexible enough to cope with keeping intruders off scaffolding sites. Our scaffold alarm plans are designed and specifically for each job and installed to the highest possible standard.</p> <p>If needed, more detectors can be added to existing systems should the scaffolding requirement develop further – and reaction to these requests is usually within 24 hours.</p> <p>We provide 2 types of systems: wired or wireless:</p> <p>Wired:</p> <ul style="list-style-type: none"> • Detectors and Beams designed for external use. • Control panel can be installed internally or externally. • Controlled by an LED keypad with an on-screen display, (installed internally with the panel, or moved externally for contractors use only.) • Complete with LED back-light external siren, automatically lighting up to alert intruders that the scaffolding is alarmed. • Can be remotely monitored by the contractor or by our monitoring company.

NASC AWARDS 2023

	<p>Wireless:</p> <ul style="list-style-type: none"> • Mains free scaffold alarms, designed to resolve a 'no mains supply situation'. • Control panels and detectors are designed for external use, and all have the appropriate protection against any damage. • All equipment comes with tamper protection, to stop any intruder from interfering with the detectors. Our systems have a built-in sounder inside the control panel. • For further protection, an external siren can be added. <p>The main benefit Cactus Security provides is the speed of response to any additional requirements or needs. We try to respond to everything within 24 hours – so our clients can truly rely on us.</p>
3.	<p>Why do you feel the services/products that your company provides should receive special recognition from NASC members?</p>
	<p>Cactus Security is a well-established company with a reputation of reliability and quality – we would like that reputation to spread further afield.</p> <p>We are certified to:</p> <ul style="list-style-type: none"> • SSAIB • CHAS • ISO9001 <p>These certifications attest that we are more than able to manage large projects – we already work with some of the largest construction companies in the UK – and we respond to enquiries within 24 hours.</p> <p>Cactus Security strives to ensure state of the art equipment is used, all engineers are qualified and regularly trained - our Health and Safety record is exemplary.</p> <p>Our customer satisfaction is proven by our Checktrade listing - we consistently receive 10 out of 10 reviews – see https://www.checktrade.com/trades/cactussecurity .</p> <p>However, Cactus Security deserves to be recognised for its professional, courteous, and responsive team – who care about providing the right equipment, for the right job, on time, every time.</p>
