

## SCAFFOLDING ANCILLARY SERVICE OF THE YEAR AWARD

NAME OF COMPANY:	Strikesoft Ltd
COMPANY WEBSITE:	<a href="http://www.strikesoft.co.uk">www.strikesoft.co.uk</a>
1.	<p>What services/products does your company provide? <i>(Please use bullet points if more than one).</i></p> <p>Software designed specifically for the scaffolding industry. For use in the office and out on site.</p>
2.	<p>What benefit do these services/products provide to scaffolding contractors?</p> <p>Our software provides scaffolding firms with an end to end solution for managing all their scaffolding contracts, from initial enquiry through to invoicing. Estimating is simple and quick and provides budgets for Labour, Transport, Materials etc which can be monitored against actuals once the job goes live. All this improves efficiency, quality control and ultimately profits.</p> <p>A huge number of reports are available; wages lists, productivity and cost analysis reports to name just a few. There is also a Stock Control module, drawings and load lists, employee and vehicle records and a harness register.</p> <p>The back office software links to an optional mobile app, available on iOS and Android devices, which digitises all required paperwork and ensures all relevant documents are signed as required. Scaffolders are able to access company documents eg Toolbox talks, Job related documents eg drawings, photos, RAMS etc and their training records. Pre-start safety checks can be completed and time off can be booked. Variations, Ties tests, Scaffold and Harness Inspections are also available. The scaffolders can complete Time Sheets and issue Handover Certificates for works carried out.</p> <p>Customers have commented that StrikeMobile has been game-changing at site level and key to growing their businesses whilst maintaining the necessary control. The ability to evidence that the necessary controls are in place easily provides the proof that many larger clients are demanding these days and provides a great deal of peace of mind for the scaffolding contractor.</p>
3.	<p>Why do you feel the services/products that your company provides should receive special recognition from NASC members?</p> <p>For 25 years now Strikesoft has developed and improved its software based on customer feedback. Approximately 50% of our customer base are NASC members. Our products represent great value for money and our customers are supported by a fantastic, experienced team that understand the nature of the business and provide a first-class service. Strikesoft Ltd has been an information member of the NASC for 20 years.</p>
